

McCune Residential Facility

Mental Health Services

McCune provides mental health services to all youth appropriate and eligible for treatment. Services offered at McCune are individual therapy, family therapy, psychological assessments and psychiatric evaluations.

McCune contracts with Comprehensive Mental Health Services to provide licensed therapists for our residents. These therapists provide both individual and family counseling to residents qualifying. Each therapist will meet with their clients a minimum of once a week for one hour individual sessions. The therapists remain in continuous contact with their client's CMO and the treatment team regarding the progress of residents.

In an attempt to assist some residents manage their behaviors they may be prescribed psychiatric medication. The only time a resident will be placed on medication of this nature will be after he is evaluated by the psychiatrist.

Your questions and concerns regarding this matter are greatly appreciated. We ask that you be involved in this process through direct contact with your son's CMO and also the facility nurse.
